OBJECTIVE

Computer Engineering undergraduate seeking internship opportunities to apply programming and software development skills in real-world applications. Interested in backend development, APIs, and building scalable software solutions while continuously improving technical and problem-solving abilities.

EDUCATION

- Savitribai Phule Pune University
- Bachelor of Technology (B.Tech) – Computer Engineering
- Currently in Second Year

TECHNICAL SKILLS

- Programming Languages: Python, Java, C++
- Web Technologies: HTML, CSS, Flask, FastAPI
- Tools & Technologies: Git, VS Code
- Concepts: Object Oriented Programming, Basic Data Structures, Problem Solving

PROJECTS

1. ATM Machine Simulator (C++):
   - Developed a console-based ATM simulator implementing core banking operations such as balance inquiry, deposit, and withdrawal.
   - Implemented menu-driven interaction and conditional logic to simulate real ATM functionality.
2. Library Management System (Python):
   - Built a basic library management system to manage book records, issue and return books, and maintain user data.
   - Applied structured programming concepts and file handling for data storage.
3. Student Management System (Java):
   - Developed a Java application to store and manage student details such as name, roll number, and marks.

- Implemented object-oriented programming concepts including classes, objects, and methods.

WORKSHOPS AND CERTIFICATIONS

- Firebase Studio Workshop – Organized by Google Developer Groups (GDG) Nashik

ACTIVITIES AND PARTICIPATION

- Hacktoberfest Grand Hackathon – GDG Nashik Participant
- Smart India Hackathon (SIH) 2025

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication
- Leadership

LANGUAGES

- English
- Hindi
- Marathi
